HT682

Advanced handheld terminal

The Unitech HT682 is a high quality handheld terminal offering great features, making this device suitable for a wide range of applications in manufacturing, retail, warehousing and logistics.

Designed for the toughest work environments, the HT682 mobile terminal gives you the reliability and flexibility needed to increase productivity and efficiency in all of your data collection applications.

It's clear, the HT682 is built to last!

Advanced Mobile Operating Systems

Equipped with a fast 800 MHz processor and Microsoft Windows CE 6.0 professional operating system, makes this device not only fast but also compatible with a variety of current software applications. The HT682 provides multiple wireless communications such as the integrated WLAN 802.11a/b/g/n for real-time data collection and Bluetooth® for cordless connectivity. Designed for the toughest working environments, the HT682 is IP65 rated and withstands a multiple 1.8 meter drop to concrete.

Choose your scan engine

When it comes to current data collection, one size doesn't fit all. That's why the HT682 is loaded with advanced data capture capabilities. Choose the scan engine that best meets your requirements. The HT682 is available with a 1D laser, 2D imager or even an extra long-range 2D imager. With this extensive choice, you can find the right HT682 model for every worker, every application and every environment.

Extended usage

The HT682 weighs only 310g and is ergonomically designed for one-handed operation and 30° tilted helical scanning. The optional gun grip and extended battery makes the HT682 perfect for scan-intensive applications.
